

TECHNICAL DATA SHEET

CONTAMINATION CONTROL MAT

REF: CC 0711 XXX

DESCRIPTION

Strippable contamination control mat designed to keep in contamination in areas of traffic (shoes) or equipment (wheels).

The mat is made up of 30 sheets (polyolefin film), each sheet containing a numbered tab for an easier grip of the sheet and for the management of new mats.

The mat is fastened to the surface using an adhesive side.

USE

Placed in areas of traffic (in doorways, locks, etc.), it keeps contamination from spreading outside controlled areas.
